Get 100% of your endoscopy pathology results into Provation

WHY YOU SHOULD INSIST ON PATHOLOGY INTEGRATION

compliance with CMS conditions of coverage and AAAHC standards

- Meets requirement to include pathology report in patient's clinical record at facility
- Physicians can confirm pathology reports are reviewed with e-signature

continuity of patient care

- Provides clinicians with timely pathology results for a more holistic picture of the patient
- Enables up-to-date recall and surveillance intervals

reporting

- Simplifies adenoma detection rate (ADR) reporting and national quality registry participation with more comprehensive, consistent data
- Specimen log report helps ensure no specimens are missed, especially if multiple pathology labs are used

time and money

- Little to no cost to you!*
- Reduce manual processes
- Strong partnerships with leading pathology vendors make it easy to interface

BONUS FEATURES

- Electronic specimen collection
- Automated pathology request forms
- Automated label printing

HOW TO INTEGRATE YOUR PATHOLOGY

Fill out this quick form.

Your Provation Representative will promptly respond to help guide you through the following ordering process.

See if your pathology vendors are Provation Pathology Partners here.

IF YOUR PATHOLOGY VENDOR(S) ARE...

LISTED

Good news! We have negotiated pricing and a turnkey process for interfacing. Your Provation Representative can help expedite your request at no cost to you after you've filled out this form.

NOT LISTED

Consider using one of our many approved Pathology Partners instead. Or request that your pathology vendor(s) work with Provation, so your facility can get all the benefits of pathology integration. Continue to Step 3...

Implement!

Provation Implementation Experts will work with you and the pathology vendor(s) to implement your pathology interfaces - so you can start enjoying all the benefits of integration.

Sign a License Addendum Agreement.

This will likely be a \$0 License Addendum Agreement meaning there is no cost to your facility!*

Email your pathology vendor(s) a request for integration.

- Use this email template to express your interest in having pathology results automatically populate in Provation via a pathology interface. Please copy your Provation Representative onto the email.
- Provation will manage the pathology vendor follow-up and coordinate a technical review call and/or proposal.
